Jinzhou, Liaoning, China

FERROALLOYNET

INVITATION

TO

FERROALLOYNET 11TH INTERNATIONAL VANADIUM PRODUCTS FORUM & ANNUAL MEETING

DATE / NOV. 4-6, 2020

PLACE / JINZHOU, LIAONING, CHINA

Dear Sir/Madam,

FerroAlloyNet 11th International Vanadium Products Forum & Annual Meeting will be on 4th-6th, November, 2020, in Jinzhou, Liaoning Province, China.

We sincerely invite you to join this conference!

Directed by: China Iron and Steel Industry Association

Organizer: FerroAlloyNet.com
CNFEOL.com
Sichuan Association of Vanadium Titanium Steel Industry
CISRI (CENTRAL IRON & STEEL RESEARCH INSTITUTE)

Co-Organizer: Jinzhou Jixin Industrial Co., Ltd.
CITIC Jinzhou Ferroalloy Co., Ltd.

Supporter: Pangang Group Vanadium Titanium Resources Co., Ltd.
HBIS Chengde Vanadium Titanium New Materials Co., Ltd.
Sichuan Desheng Group Vanadium Titanium Co., Ltd.
Tranvic Group Chengyu Vanadium Titanium Technology Co., Ltd.
Chengde Jianlong Iron & Steel Co., Ltd.
Jinzhou Xinwanbo Metal Materials Co., Ltd.
Liaoning Huatai Metal Industrial Co., Ltd.
Jinzhou New Chian Dragon Molybdenum Industry Co., Ltd.
Chaoyang Boyuan Metal Industrial Co., Ltd.
Jinzhou Xinlong Vanadium Industry Co., Ltd.
China Iron and Steel Industry Association Vanadium Association
VANITEC

Media Support: China Metallurgical News
World Metals

There are more than 50 vanadium processing enterprises in Liaoning Province, covering raw materials, ferrovanadium, VN alloy, ferrovanadium nitride, vanadium-aluminum alloy, vanadium electrolyte and metal vanadium. In addition, one third of China's ferrovanadium production is in Liaoning Province, which has obviously become the processing center of vanadium. In order to better promote the healthy and orderly development of China's vanadium industry and deeply understand the production situation of China's vanadium processing enterprises, FerroAlloyNet 11th Vanadium Product Forum and annual meeting is scheduled to be held in Jinzhou, Liaoning Province from November 4 to 6, 2020. The conference aims to "grasp the industry situation, study the industry rules, put forward industry suggestions, maintain the industry order and promote the development of the industry", with the theme of "collaborative integration and construction of vanadium industry ecosystem", striving to promote the high-quality development of China's vanadium industry.

FerroAlloyNet 11th International Vanadium Products Forum & Annual Meeting

DATE / NOV. 4-6, 2020

PLACE / JINZHOU, LIAONING, CHINA

This event will invite industry well-known scholars, senior industry analyst, vanadium production enterprises, vanadium traders; steel mills, equipments producers, Technical support providers etc. from all over the world, analyze the hot issues and explore the vanadium and steel industry market together in 2020, and actively explore the development of enterprises in the new situation.

We look forward to your participation! For the domestic and foreign enterprises in the vanadium and steel industry

Conference Agenda

4 Nov. Registration
Sign-in & Get Conference Materials
Interaction between supply and demand at the site of trade negotiations Provide trade matching services on the spot to help enterprises to introduce customers Large screen rolling play enterprise supply and demand information
Welcome Banquet
Morning, 5 Nov.—Keynote Speech
Opening Speech (Enterprise Representative)
Keynote Speech
Opportunities and challenges of high quality development of China's iron and steel industry in 2021--China Iron and Steel Industry Association
National environmental protection policy in 2021 and suggestions on green development of vanadium industry--Ministry of Environmental Protection
Promotion and planning of new rebar standard in 2021-- CISRI
Technical difficulties and latest development of vanadium battery in 2021--Institute of Metal Research Chinese Academy of Sciences
Afternoon, 5 Nov.— Market sub Forum
Forecast of new capacity and overall supply and demand of domestic vanadium industry in 2021--Well known vanadium production enterprises in China
Forecast of global vanadium market supply and demand and price trend in 2021

FerroAlloyNet 11th International Vanadium Products Forum & Annual Meeting

DATE / NOV. 4-6, 2020

PLACE / JINZHOU, LIAONING, CHINA

Trend of rebar in China in 2021 and change of demand for VN alloy--A large domestic steel plant
Opportunities and challenges of vanadium extraction from stone coal in 2021--Domestic famous vanadium extraction enterprises from stone coal
Afternoon, 5 Nov.— Technical sub Forum(CISRI)
R&D and application of vanadium microalloying technology in section steel--A well-known steel mill in China
R&D and production of VN microalloying high strength steel bar--A well-known steel mill in China
Market application status and Prospect Analysis of vanadium in non steel industry--A famous vanadium enterprise in China
Application of vanadium microalloying technology in cast steel and cast iron--Professor of a university
6 Nov. — Visit Jinzhou Jixin Industrial Co., Ltd. & CITIC Jinzhou Ferroalloy Co., Ltd.

(Notes: The above agenda, final speaker and speech topic shall be subject to the final announcement or see the official website of the conference)

Online Conference

Given the ongoing situation with the Novel Coronavirus and containing policy across global and considering the safety for our attendees, FerroAlloyNet is going to make the live online conference at the same time.

Processes: Download Online Conference APP → Member Registration → Input Exclusive ID & Password → Watch the PPT & Listen to the Speech

Registration fee

	Before 16 Oct, 2020	Before Nov. 4, 2020	At Conference site
Registration Fee	800USD/Person	1000USD/Person	1200USD/Person

Note: 1. The above registration fee includes conference admission fee, service fee, and simultaneous interpreting fee during speech time, conference materials, not including advertisement fee.

2. There will be no refund for any cancellation although delegate substitution will be permitted.
